### **EXAMINER'S AMENDMENT**

1. An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on 12/13/04, Paul Wilson requested an extension of time for 1 MONTH(S) and authorized the Director to charge Deposit Account No. 19-4880 the required fee of \$120 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The title has been changed to —Resin film forming method—.

The claims have been amended as on the attached pages.

### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest forming islands such that cross-sections of the film have only one or two islands along the entire length. It appears that applicant's islands are a single, or two, continuous strand rather than the intimately mixed strands of Thompson(Col. 4, ll. 37-39). Since the reference teaches away from such a small number of islands, such would not be obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
